ABOUT THE PROGRAM

Developing & Delivering
Startup Business Idea
Pitches from Scratch

Learn about Entrepreneurship
and Cultivating an
Entrepreneurial Mindset

Tips and Tricks
to become a
Successful Entrepreneur

Getting Ready
for the Future
of Work

EDPI is organized virtually for a batch of 100+ students. The students in every batch are divided into groups, and each group consists of 4-5 students. A mentor is assigned to each group. Each group is required to work on the mutually agreed problem statement with the help of the mentors assigned to them.

There are 12 topics in EDPI, covering the concepts of Business & Finance, Design Thinking, Idea, Sales & Marketing & Presentation and communication skills which are delivered by global industry experts. These sessions help the students to work on their pitch deck, which they have to prepare and eventually present in the form of a video to a panel of global judges during the PitchFest.
